TORNADO SEASON OPENS

Eldorado, Kans., Suffers Considerable Damage From Wind, Hail and Rain.

CHURCH AND SCHOOL HOUSES WRECKED

Kansas City Also Visited by Severe Storm—Minnesota Town Almost Entirely Wiped Out; Every Business House in the Place Either Demolished or Badly Damaged—One Fatality Reported.

Eldorado, Kan., March 29.—A tornado passed through this town from the southwest to the northeast, causing great damage to property and slightly injuring several persons, the most serious injury being to Mrs. Ida Madison, caught in the ruins of her home. The path of the storm was about a quarter of a mile wide, and most of the damage occurred in the business portion.

The front of the Commercial hotel, a brick structure, was torn out; part of the north side of the Windsor hotel, and the northeast corner of Stevenson's photograph gallery were demolished; plate glass was broken out of the two banks and several stores. Buildings were unroofed, awnings, signs and window glass smashed. In the residence portion houses and barns were unroofed and small buildings demolished.

The steeple of the Methodist church was torn away, the Riverside brick school building is a complete wreck, and another school building is unroofed. The standpipe for the city water supply was demolished, and the gas works and telephone company are out of commission. Owing to telephone connections being broken, it is impossible to hear from the northeast, where it is thought the tornado did considerable damage. No damage was done southwest of this town.

Minnesota Town Suffers.

St. Paul, Minn., March 29.—A dispatch from Appleton, Minn., saying that of the seven persons injured as a result of the tornado which destroyed the village of Lewisburg, one is fatally hurt. Every business house in town was either demolished or badly damaged and most of the houses in the village were unroofed. From Breckenridge on the Waterloo branch of the Great Northern, a relief train was despatched to Lewisburg as soon as news of the storm was received. Most of the people escaped serious injury by getting into their cellars. Fred Moen, who was in his cellar, was carried 20 feet and though seriously injured, will recover. The tornado was preceded by hail. It is not believed that much damage was done outside of town. The Interstate, Northwestern & McCaul, and Webster grain elevators were demolished and their contents were scattered over miles of ground.

Cyclone at Ottawa, Kans.

Ottawa, Kan., March 29.—Ottawa was in the path of a cyclone though the realization of that fact did not dawn upon the town until daylight, so terrific was the deluge of rain and hail which followed and so general was the demoralization of telephone and telegraph service. The storm came from the southwest, accompanied by one of the hardest rains ever known in the history of the town. The path was from southwest to northeast and the territory covered by the wind was about a half mile wide. Barns were demolished and buildings unroofed.

One store building on Main street was unroofed and the contents soaked. In the northeast corner of town four dwelling houses were destroyed and 15 or 20 barns demolished.

Storm at Kansas City.
Kansas City, Mo., March 29.—A thunder storm accompanied by a terrific wind swept over the west and north parts of Kansas City, overturning small shanties, snapping off telegraph poles, blowing signs into the streets and causing general alarm among residents. So far as was reported only one person was injured. The city hall was struck by lightning but not seriously damaged.

College Struck by Lightning.
Parkville, Mo., March 29.—While the young women of Park college were playing basketball on the fourth floor of Mackay, the main college building here, the clock tower was struck by lightning. A large hole was made in the tower and the insulating was burned from all the electric wires in the building.

Rain in Oklahoma.
Oklahoma City, Ok., March 29.—After a windstorm amounting almost to a gale and lasting 24 hours, a heavy rain, which was general throughout Southern Oklahoma, set in and 1.3 inches of rain fell in five hours.

Damage Near Madison, Kan.
Madison Kan., March 29.—A heavy wind storm near here destroyed the school, the house of Elmer Fletcher and much farm property. Robert Thornton, a farmer, was knocked from a load of hay, and fatally hurt.

Funeral of Mexican Minister.
Washington, March 29.—The profound regard cherished by the American government for the late Senor Don Manuel de Aspiroz found suitable expression at a religious service in his memory held at St. Matthews church Tuesday, which was attended by the president and Mrs. Roosevelt, members of the cabinet, the entire diplomatic corps, the supreme court, senators and members of congress and many other officials and personal friends of the deceased ambassador.

Drowned in Missouri River.

St. Joseph, Mo., March 29.—Five men sank to their deaths in the Missouri river in an attempt to cross from the Kansas side to the water works pumping station here. In the face of the raging wind, with darkness fast coming on, the five set out in a little skiff from a point about a mile above the station. The skiff was capsized before it rounded the bend a half mile above the station. All on board, save one, were drowned when the boat went down.

Japanese Loan in London.

London, March 29.—When the prospectus of the Japanese war loan of \$150,000,000 was issued here the neighborhood of the issuing banks resembled the scenes witnessed on first night's popular theatres. Long lines of people were struggling for admission and special forces of police controlled the streams of eager investors. The interiors of the banks were filled with shouting crowds struggling to snatch prospectuses.

Law Favors Constitution.

Moscow, March 29.—The bar of Moscow, at a meeting, adopted a resolution calling for a popular assembly to formulate a constitutional act defining and limiting the governmental systems. The meeting also advocated the formation of a civic militia for the protection of citizens and control by municipalities or zemstvos to which control of the police should also be transferred.

ROSSEAU'S QUEER CLAIM

Says an Infernal Machine of His Manufacture Caused the Sinking of the Maine.

WAS MISTAKEN FOR A SPANISH SHIP

Man Convicted of Placing Explosives on Cunard Pier at New York. Makes a Wild Wild Statement—Man Who Placed Machine Killed Himself When Error Was Discovered.

New York, March 29.—That the battleship Maine through an error was destroyed by a bomb of his manufacture was the statement made by Gessler Rosseau in the Tombs prison. Rosseau was convicted Monday of having sent explosives to the Cunard line pier, this city, in May, 1903. He made the following statement:

"For several years, while the Cuban patriots were struggling against Weyler, I watched the contest with deep interest and sympathy. I decided to go to Jacksonville and do what I could to assist the revolutionists. I started from St. Louis, where I had been living during the early part of 1897. Before taking a train for the south I got together the material for the construction of two exploding machines of tremendous power, so arranged that they could be wound up and left in a selected place, with the certainty that they would go off with terrible destruction within a few hours. At New Orleans I rented a room and put the boxes together after which I went on to Jacksonville. There I became acquainted with a party of Cuban leaders who were planning a filibustering expedition. They had engaged the Destroyer, a small vessel, to take them to Cuba along with a number of American and European adventurers who were anxious to strike a blow for Cuban freedom. Several of the leaders of the party are men now well known and I will not mention their names, although I have among my papers a list of them all. I suggested to them that they use my machines to destroy Spanish warships in the harbor of Havana and in other ports on the coast of the island. They readily seized upon the idea, and when the Destroyer sailed with the filibusters, they took my two machines with them.

It was my intention to go along with the party so as to direct the work of sinking the Spanish ships, but they dissuaded me, urging that I could be of greater use in Jacksonville preparing other machines if the first prove successful. It was planned to have some members of the revolution party join the Spanish navy so as to get the machines aboard. If that failed I was decided to fasten one of the boxes to the hull of a ship under the water line, for I had constructed my machines so they could be exploded under the water. That was late in the fall of 1897. The next spring the Maine was destroyed.

Only one of the men in the secret ever returned to America. I saw him some time after the war with Spain had begun. He told me he had nothing to do with the boxes after reaching Cuba, but had been told a mistake had been made. The man who had been entrusted with the task of destroying a Spanish vessel attempted to fasten a box during the night to one of Alfonso's warships and had blundered into blowing up the Maine. I was told that the man immediately after learning of the error he had made, committed suicide."

Would Have Jimenez in Place of Morales.

Cape Haytien, Hayti, March 29.—Advices received here by courier from Monte Cristi on the northern coast of the republic of Santo Domingo announce that Gen. Barba with a number of Dominican exiles has landed at Monte Cristi on the northern coast of have risen against President Morales, reproaching him with being the cause of the present difficulties with foreign countries. It is added that the district of Monte Cristi is ready to begin a revolution in favor of Former President Jimenez and is only waiting the signal to take up arms.

RUSSIA'S DARK FUTURE.

Nobles Greatly Alarmed by the Peasant Movement Which is Threatening Their Property.

ROVING BANDS CONTINUE TO PILLAGE

The Few Scattered Troops Seem Powerless to Control the Situation—In the Caucasus a State Bordering on Civil War Exists—Urges the Necessity of Some Measure of Popular Representation.

St. Petersburg, March 29.—The action of the nobility of the government of Moscow at the meeting held Monday in urging the necessity for some measure of popular representation while taking a distinct stand against a constitutional government of the kind enjoyed by the nations of western Europe, introduced the first organized conservative element in the situation. Most of the nobles are landed proprietors who have become greatly alarmed by the peasant movement which is threatening property in the country and they will undoubtedly try to rally to their support the city property interests, all of which they claim are endangered by the growing tide of lawlessness. The nobles urge that the time has come for co-operation with the government for mutual self-protection, pointing out that the strikes in the cities, by sending thousands of workmen filled with revolutionary ideas back to their villages, besides introducing political ideas among the peasants, only increases the latter's demands for land. In many districts the landlords are organizing guards to protect their property at their own expense. The troops which the government is able to send are insufficient.

Roving bands of peasants continue to pillage, burn and murder in the Chernigov government and in Tambov, Kazan and other governments in the south. The few troops here and there are powerless. The whole peasant population is affected more or less. The parish priests, under instructions from the holy synod, are doing all possible to quiet the peasants, but without making any appreciable impression. With warm weather a crisis will come, especially if it is accompanied by orders for another extensive mobilization.

In the meantime the situation in the Caucasus is growing worse. A state bordering on civil war exists in the Kuban territory, where the population has been armed for a collision with the soldiers. In the Georgia, Mingrelia and Kutais territories the red flag of revolt has been raised.

At Yalta, Crimea, after the population had wrecked the vodka shops, police quarters, etc., warships were sent from Sebastopol and marines were landed as if in a hostile country.

The renewal of the bomb outrages in Poland and the open demonstrations in Finland against conscription are both regarded as bad and significant signs.

JAPANESE AGAIN MOVING.

Russian Rear Guard Compelled to Fall Back—Commissariat Stores to the Value of \$1,750,000 Sacrificed.

Gunshu Pass, Manchuria, March 28.—The Japanese are moving forward and the Russian rear guard has fallen back from its position about 13 miles north of Sipinghai (74 miles north of Tie pass) to Chaominiaodai which is situated 40 miles below Gunshu pass.

Practically complete reports show that the Russian army sacrificed general commissariat stores to the amount of \$1,250,000 and stores for an army corps amounting to \$500,000 held at Mukden most of it being set on fire, the boots and uniforms among the stores of which the whole army was in need, arriving from Europe four days before the Russian retirement from Mukden. Gen. Kuropatkin ordered the removal of the stores, but his order was not executed. An investigation will be made to establish the responsibility.

Capt. Swift Has Typhoid.

Washington, March 29.—The Dolphin, with Secretary Morton's party, has arrived at Havana from Guantanamo. Capt. Gibbons, commanding the vessel, in reporting his arrival at the Cuban capital, informed the department that Capt. William A. Swift who is accompanying the secretary is ill with typhoid fever and has been placed in a hospital at Havana.

Washington, March 29.—Postmaster General Coriell has notified Senator Long that he had decided to approve the order establishing rural free delivery headquarters at Omaha and removing to that point the district headquarters now at Kansas City.

Smiley Wants a Pardon.

WHEN BUYING A SUIT
It is more important by far that you should consider HOW LONG that suit is going to HOLD ITS SHAPE than is the mere matter of color or pattern of cloth. Garments made by Rose & Company are noted for holding their shape longer and "looking like new" than any other tailors' make. Every order taken by Rose & Company the patterns are drafted to each customer's measurement with shears in the hands of master cutters.
If you anticipate ordering a suit for Easter, we would advise you to call early and be measured so that we can have plenty of time to finish it as it should be done.

While the matter of closing the schools on May 1, was not discussed at the meeting, it is probable that at a meeting which will be held Monday morning this may be done. Died,
At Coalgate, I. T., Tuesday evening, March 20, at 5 o'clock, Mrs. Geo. D. Hodge.
All day Tuesday the news was flashed across the country from Coalgate to Ada stating the condition of the deceased lady and at times hope was given out that her illness would not prove critical, but shortly after 5 o'clock a message was received stating that her illness had proved fatal.
Mrs. Hodge was an estimable woman and her accomplishments were many. She numbered her friends here by the hundreds, all of whom mourn her demise. She was a member of the Presbyterian church of this city and had been a resident of the town for three years, prior to her removal to Coalgate some ten months ago. She leaves a devoted husband, who has the heartfelt sympathy of the entire community in his hours of affliction.
The funeral occurred at Coalgate Wednesday afternoon.

Shawnee Merchant Disappears.

Shawnee, O. T., March 29.—J. W. Harvey, the Main-street groceryman, has not shown up yet and his disappearance is as much a mystery as ever.

Harvey was last seen in Shawnee Thursday at 3 o'clock of last week by Mrs. H. E. Birch. His intentions were to go to South Shawnee to collect among the railroad employes, but inquiry shows that he did not show up at the yards.

Foul play is suspected, as he had a good, prosperous business and his family relations were of the best. He had about \$60 on his person.

Presbyterians.

The congregation of the Presbyterian church are reminded that this is the evening for their prayermeeting which begins at 8 o'clock. Choir practice immediately following.

ADA FIRE CO.

Young Men Meet, Complete Organization and Elect Officers.

The young men of Ada met at the office of Dr. Browall last evening and completed the fire company organization. Dr. H. Browall was unanimously elected chief of the company and Otis Weaver captain.

The chief of the company was authorized to appoint other officers of the company. W. W. Higgins, Lee Eddleman and Otis Weaver were selected to draft by-laws and constitution for the organization.

Maupin Timberlake, W. W. Higgins, Dr. Browall and Otis Weaver were appointed as a committee to determine just what equipment it is necessary for the town to have to be commensurate with our system of waterworks, the town's needs and ability to secure, and to the securing the greatest reduction in insurance rates, and with such information to go before the commercial club at their next regular meeting, and ask that it take decisive action in assisting the committee in securing from the city, incorporate or otherwise, the necessary funds to properly equip a fire department.

It is now up to the commercial interests and the council of the town to do something. The insurance rating bureau people are in Ada making a thorough re-rating and will be here two weeks before completing the work.

It is a matter of straight business. At the minimum, a thousand dollars invested in fire company equipment at once will save this town the first year—this year now with us—at least \$3,000.

To show the public this is true, the News makes this statement. The town of Ada pays annually at least \$30,000 to foreign fire insurance companies. The average fire rate in this town is easily two and a half per cent.

A thousand dollars expended at once in fire company equipment will reduce the insurance rate one quarter of one per cent more from the present rate than will be reduced under the present protection and equipment. If an average rate of 2 1/2 per cent creates a premium amount of \$30,000, then one-fourth of one per cent reduction represents \$3,000. The rate people determine the rates under the present and not prospective fire protection.

It is laborious work to re-rate a town the size of Ada, and unless the benefits are secured now, it

may be two years before a second reduction is granted.

Let the members of the council and the commercial club become informed about this proposition and at their first meeting act and do so with understanding.

FACTORY GIRLS IN PANIC.

Insignificant Fire in New York Shirtwaist Factory Caused the Employees to Stampede.

New York, March 29.—A trifling blaze caused by the ignition of a newspaper from a spark from an electrical apparatus in the shirtwaist factory of Max Roth, which occupies the five upper floors of a six-story building in Walker street, started a panic among the 300 girls employed there. There is but one exit, besides the fire escapes, this being a narrow, steep stairway, leading from all the floors. When the cry of fire was raised the girls crowded down this stairway, falling over and trampling upon each other and before all were out a dozen of them fainted from fright and slight injuries. The panic was increased by the conduct of some of the men employees who trampled on the women in their own haste to escape. One girl's hip was fractured.
